

Comtech to Demonstrate Cost-Effective Solutions for Precision Satellite Tracking at Small Satellite 2019 Conference

July 31, 2019

MELVILLE, N.Y.--(BUSINESS WIRE)-- July 31, 2019-- Comtech Telecommunications Corp. (NASDAQ: CMTL) announces that the Space & Component Technology division of Comtech's Command and Control Technologies group, which is part of Comtech's Government Solutions segment, will be exhibiting August 3rd through 8th at the Small Satellite 2019 Conference. Comtech will be showcasing its cost-effective X/Y antenna pedestal technology for precision satellite tracking, as well as frequency tuned radomes and carbon fiber dishes.

Located at the Utah State University in Logan, Utah, Comtech invites attendees to visit Booth 48 to learn more. Specifically designed for low earth orbit ("LEO") and medium earth orbit ("MEO") satellite tracking in support of Earth Observation, Remote Sensing, and Telemetry, Tracking and Command ("TT&C") applications, Comtech offers one of the most efficient product delivery schedules in the industry. Furthermore, Comtech offers low-cost radome solutions and carbon fiber reflectors to support LEO, MEO, and GEO antenna operations in all environments.

Comtech's Space and Component Technology (SCT) division of Cypress, California, has specialized for 43 years in providing Ground System services in the form of turn-key site development, infrastructure, operations and maintenance of several range tracking stations in the South Pacific. Over the past 16 years, SCT added the most extensive line of LEO/MEO X/Y tracking antennas in the industry. Using the concept of product families and platform-based product development to increase variety, shorten lead-times, and reduce costs without compromising system performance, Comtech provides turn key ground station solutions for both launch vehicle and satellite tracking. For more information, visit www.trackmysat.com.

The Command and Control Technologies group is a leading provider of mission-critical, highly-mobile C4ISR solutions.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company sells products to a diverse customer base in the global commercial and government communications markets.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
