Comtech Telecommunications Corp. Awarded \$1.3 Million Contract for Communications Jamming High Power Amplifiers

MELVILLE, N.Y., Mar 06, 2007 (BUSINESS WIRE) -- Comtech Telecommunications Corp. (Nasdaq: CMTL) announced today that its New York-based subsidiary, Comtech PST Corp., has received a \$1.3 million follow-on contract for broadband, solid state, high power RF microwave amplifier systems from a major international OEM.

The amplifier systems, which include the latest solid state switching and transistor technology and provide for very broad frequency coverage, will be utilized as part of a communications jamming system supplied to an international end user.

In commenting on this contract award, Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "The broadband, high power capabilities of our amplifier product line have enabled us to participate in several major electronic warfare application programs."

Comtech PST Corp. (www.comtechpst.com) is a leading independent supplier of broadband high power, high performance RF microwave amplifiers for use in a broad spectrum of applications including defense, medical, instrumentation, and satellite communications systems.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable or ineffective. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.
