Comtech Telecommunications Corp. Receives \$4.8 Million of Orders for MTTTS Troposcatter Terminals for Use by the U.S. Military

MELVILLE, N.Y.--(BUSINESS WIRE)-- August 11, 2015 - Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that its Orlando, Florida-based subsidiary, Comtech Systems, Inc., received orders aggregating \$4.8 million for its MTTTS Troposcatter terminals, solid-state amplifiers (SSPAs) and associated spare parts. This equipment is slated for use by the U.S. military overseas and is expected to ship in Comtech's fiscal 2016.

At the heart of the MTTTS system is Comtech Systems' industry leading CS67500 digital troposcatter modem, which provides the highest data capacity of any troposcatter modem available. The CS67500 modem features turbo code forward error correction, ethernet baseband connectivity with variable rates ranging from 576 kb/s to 50 Mb/s.

Dr. Stanton Sloane, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "MTTTS provides cost-effective, high-bandwidth communications in a package that small teams can easily deploy and is expected to play an increasingly important role in delivering mission-critical bandwidth to the battlefield. We are pleased that our troposcatter terminals can fulfill the U.S. military's tactical communications requirements due to their proven performance, reliability and high data rates."

Comtech Systems, Inc. (www.comtechsystems.com) specializes in system design, integration, supply and commissioning of turnkey communication systems including over-the-horizon microwave, line-of-sight microwave and satellite.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company's solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable, inefficient or too expensive. The Company conducts business through three complementary segments: telecommunications transmission, RF microwave amplifiers and mobile data communications. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a leader in most of the market segments that it serves.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
