Mr. Fred Kornberg, President, commented, "we are pleased to report that the net sales for the third quarter increased more than 57% and net income increased more than 360% over last year's third quarter. The Company's increased sales and income over the corresponding nine month period in fiscal 1997, reflecting the benefits flowing from Comtech's continuing transition to a product oriented business, were primarily driven by our Comtech PST operating unit, partially offset by results of our Comtech Communications Corp. operating unit which experienced and continues to experience lower sales from the Pacific Rim area."

Comtech, through its operating units, is a broad based manufacturer of state-of-the-art solid state high power amplifiers and high technology satellite and troposcatter telecommunication products and systems for commercial and government applications.
