## **Comtech Telecommunications Corp. Awarded \$1.4 Million of Orders for SATCOM High-Power Amplifiers**

MELVILLE, N.Y., Feb. 8, 2011 (GLOBE NEWSWIRE) -- Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that its Melville, New York-based subsidiary, Comtech PST Corp., has received \$1.4 million of orders for high-power amplifiers from a leading provider of aviation electronics and communication systems.

The amplifiers are utilized as part of satellite communications systems which provide commercial mobile airborne-to-satellite-to-ground communications service. The systems provide operators with the ability to access Inmarsat's Aero-H, Aero-I and SwiftBroadband service for aeronautical satellite communications with multi-channel voice, fax and data capabilities. These orders supplement a significant installed base of Comtech high-power amplifiers previously delivered to this customer.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "These orders are ongoing evidence of our capabilities in delivering innovative commercial aircraft amplifier products. We are proud of our long-standing relationship with this premier supplier of aviation satellite communications systems."

Comtech PST Corp. ([www.comtechpst.com](http://www.comtechpst.com)) is a leading independent supplier of broadband, high-power, high performance RF microwave amplifiers for use in a broad spectrum of applications including defense, medical, satellite communications systems and instrumentation.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable, inefficient or too expensive. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.
