Comtech Telecommunications Corp. Receives \$3.2 Million of Movement Tracking System Orders

MELVILLE, N.Y., Dec 9, 2008 (GlobeNewswire via COMTEX News Network) -- Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that its Maryland-based subsidiary, Comtech Mobile Datacom Corporation, received orders totaling \$3.2 million under its Movement Tracking System, or MTS contract, with the U.S. Army. Total orders received to date against the \$605.1 million MTS contract increased to \$144.2 million.

The orders are for the supply of MTS systems which feature Comtech's Model MT-2012 mobile satellite transceivers integrated with both ruggedized and control station computers, MTS installation kits, as well as installation, training and technical support services. Comtech's Model MT-2012 Transceiver features Savi Technology's ISO-compliant EchoPoint RFID Reader, as well as secure Global Positioning System (GPS) capabilities. The orders are in support of ongoing MTS program activities in the United States and abroad.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "We are pleased to have received these most recent MTS orders. We look forward to our continued involvement in the MTS Program and other critical programs for the Department of Defense."

Comtech Mobile Datacom Corporation, a Germantown, Maryland-based company, is engaged in the provision of satellite-based packet data communication systems and location and messaging services through the use of advanced communication and network technology. To learn more about Comtech Mobile Datacom, please visit the company's website at www.comtechmobile.com.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable or ineffective. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.

Savi Technology is a leading provider of supply chain management and security solutions leveraging software and Automatic Identification and Data Collection (AIDC) technologies, including Radio Frequency Identification (RFID). Savi Technology is a wholly-owned subsidiary of Lockheed Martin Corporation (NYSE:LMT).
