## **Comtech Telecommunications Corp. Wins \$1.7 Million Order for High-Power Solid-State Amplifiers for Satellite Communication Terminals**

MELVILLE, N.Y., Jan. 5, 2011 (GLOBE NEWSWIRE) -- Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that its Santa Clara, California-based subsidiary, Comtech Xicom Technology, Inc., received a \$1.7M order for outdoor solid-state power amplifiers (SSPAs) to be used in transportable fly-away satellite terminals for government satellite communications applications.

The award is for amplifiers of various power levels that operate in C-band, X-band or Ku-band. The terminals are expected to provide in-theater global satellite communications connectivity for the U.S. armed forces.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., stated, "This order reflects the sustained demand for high-power solid-state amplifiers capable of outdoor use for government satellite communications. Comtech Xicom Technology continues to lead the way with light-weight and durable SSPA designs."

Comtech Xicom Technology, Inc., a world leader in high-power amplifiers, manufactures a wide variety of tube-based and solid-state power amplifiers for military and commercial satellite uplink applications. The product range encompasses power levels from 8 W to 3 kW, with frequency coverage in sub-bands within the 2 GHz to 45 GHz spectrum. Amplifiers are available for fixed and ground-based, ship-board, and airborne mobile applications. Please visit [www.xicomtech.com](http://www.xicomtech.com) for more information.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable, inefficient or too expensive. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.
